

Dräger X-plore® 4300 Half masks

Dräger X-plore® 4300 – the low maintenance option in the range of single-filter half masks providing optimum cost efficiency. Its optimal design together with a unique blend of materials provides comfort while maintaining low weight.

A one-piece head harness with only two adjustment points enables quick and easy donning and doffing and ensures an optimal pressure distribution.

The slim design makes the Dräger X-plore® 4300 half masks fully compatible with other safety equipment, including glasses and helmets. Available in two different sizes the Dräger X-plore® 4300 half masks fit to almost any face. The exhalation valve underneath the chin flushes warm air and liquids out of the masks – keeping your face cool, even when working hard.

Cleaning is easy – the Dräger X-plore® 4300 half masks are machine-washable and require no maintenance or spare parts – less for you to worry about. The Dräger X-plore® 4300 half masks are available with two different filter connec-

tions: Rd40 acc. to EN 148-1 and Rd90 (Dräger-specific). A full range of Dräger particle, gas, and combination filters are available for your various applications.

The Dräger X-plore® 4300 half masks give you affordable, easy to use, and effective respiratory protection, that you will want to wear. Simply choose the half mask & filter combination to best fit your needs.

Benefits:

1. lightweight
2. comfortable to wear
3. optimum fit and easy to use
4. two mask sizes, two connection versions
5. wide range of filters
6. cost-effective

Dräger X-plore® 4300 half mask – another quality product from Dräger.
