

HONEYWELL HM5500 HALF MASK

I Comfortable respiratory protection – at your service

When your workforce needs reliable and durable respiratory protection for a variety of applications, the new Honeywell HM5500 half mask is the economical solution that does not cut back when it comes to user benefits.

We designed the HM5500 half mask to offer optimal fit and comfort for the wearer, thanks to its wide, contoured sealing area, latex-free straps, and flexible nose bridge. It is also easy to clean and maintain and workers can use it together with other Honeywell personal protective equipment (PPE) such as safety glasses, hard hats and earmuffs.

PRODUCT BENEFITS

The new Honeywell HM5500 half mask has numerous advantages that make it a cost-effective and comfortable solution for your respiratory protection needs. Below is a list with the main benefits of this product:

- Wide, contoured sealing area for a great fit and reduced pressure points
- Latex-free straps that stretch and move with the worker for optimum support and comfort
- Elastomeric facepiece material that is soft and resilient for a secure seal
- Low dead air space that limits re-breathing of exhaled air for increased comfort and productivity
- Polypropylene cartridge connectors that are compatible with the Honeywell bayonet cartridge and filter range
- Easy cleaning and maintenance with soap and water or disinfectant wipes

TECHNICAL SPECIFICATIONS

FEATURE	DESCRIPTION
Cartridge Connectors	Polypropylene
